

# Liquid Disposal

Soda, water, and other liquids not only add weight to your recycle stream, but can ruin an entire batch of recyclables and redirect them to landfill. Max-R Liquid Disposal streams prevent this and provide ease of use to end-users, encouraging them to follow and support your recycling initiatives.

# Our Mission

## ENSURING SUSTAINABILITY FOR GENERATIONS TO COME

We take pride in the fact that our bins and furnishings are all made from recycled plastic. The simple act of recycling prevents it from ending up in a landfill or the ocean, it adds to an extraordinary journey—allowing others to join a common goal of saving the planet.

For over 25 years, we have worked with some of the best brands in the world, contributing to their sustainability goals. Now we have set the bar even higher. By doing our part to help the planet by manufacturing bins made with Max-R Lumber™, diverting plastics from landfills and waterways.

# Sustainable Practices

## DOING OUR PART

Our sustainability goals are only as good from the start of the journey. Here is how we contribute towards a greener company.

### Closing the Loop

Because the purity of Max-R Lumber™ allows it to be recycled again and again, our manufacturing team purposefully collects all scrap material to be repurposed for future products.

### Green-Circle Certified

Products built with Max-R Lumber™ are made of 95% pure post-consumer HDPE and may contribute to **LEED® goals under MR 4.1 & MR 4.2.**

### LEED v4 Credits

Max-R Lumber™ fulfills credits in the Building Design and Construction category of LEED v4 rating system, potentially earning up to 9 credits

### Locally Sourced

The majority of our raw materials are sourced from within a 150-mile radius of our facility in Sussex, Wisconsin. All products are built in America by hard-working Wisconsinites.

### Protect Resources

To promote sustainable forest management, SFI Certified paper is used company wide. Water conservation efforts are pursued through faucet aerators and low-flow toilets.
