Intentionally Designed Products for your Space

Max-R furnishings encompass every aspect of your property. From the main entrance to the loading dock, our bins and customizable furnishings seamlessly blend functional products with operational needs to create solutions that benefit your facility.

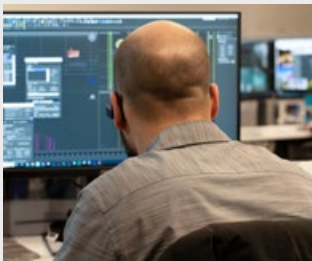

3D Rendering Services

Our in-house design team can take your existing space and produce photo-realistic, three dimensional renderings to better visualize how Max-R furnishings will function on-site.

Products Customized to You

Our expertise, adaptive process and innovative technologies allow us to turn ideas into reality, delivering products that meet your operational demands and property aesthetic.

Expert Support

Max-R and Prestwick employ a team of on-site engineers, designers, product developers and support staff to answer questions, remove obstacles and overcome challenges quickly.

Trusted Consultative Partners

Proudly Made
In the USA

From our 150,000+ square feet manufacturing facility in Wisconsin, we craft each order to your specifications. Whether it is a single unit or an entire property, all of our premium offerings and material are **proudly manufactured and sourced in the**

USA. Our dedicated team of on-site designers, engineers and manufacturing experts tackle your project with industry-leading efficiency and deliver.

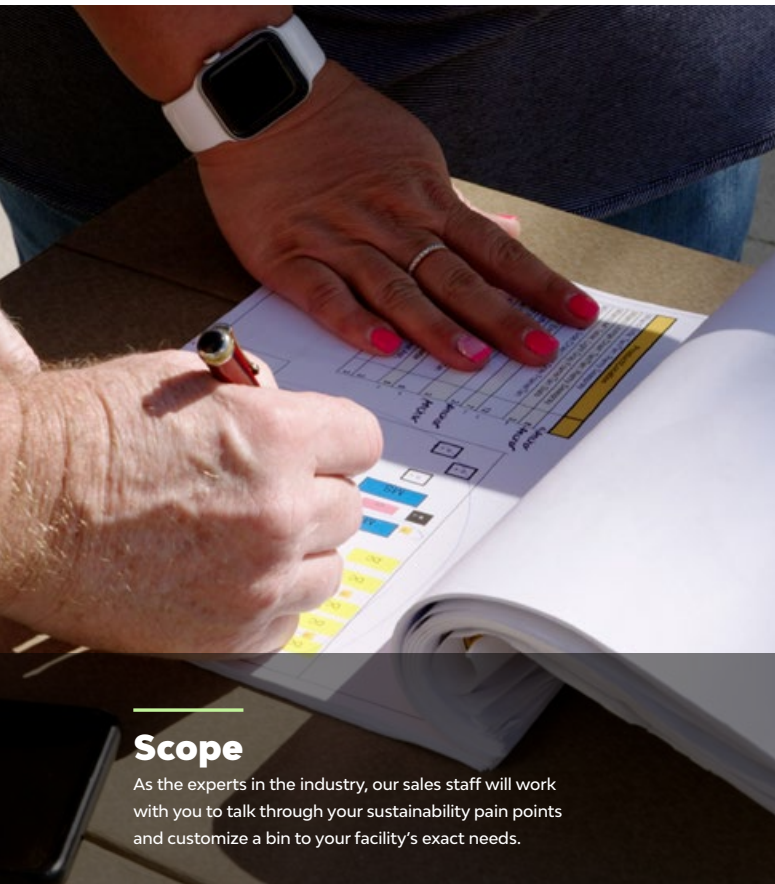

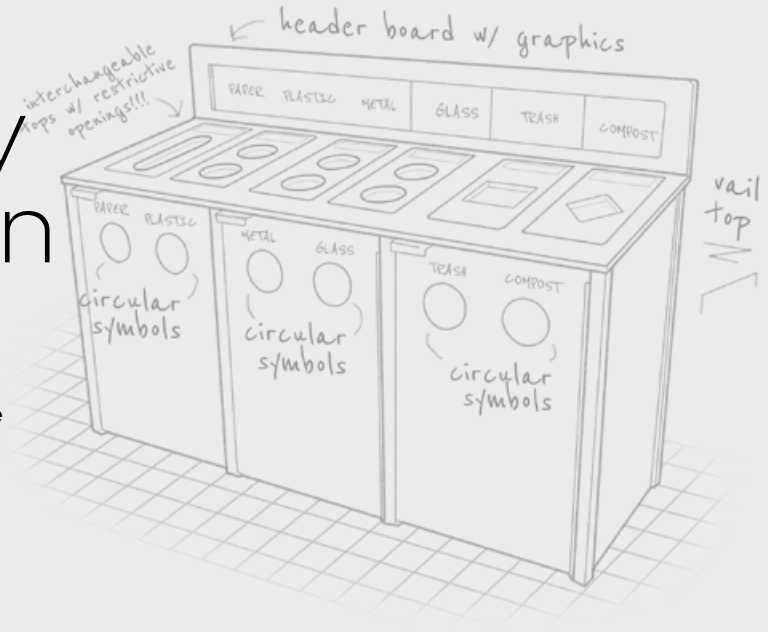

150,000 ft² Campus (Sussex, WI USA)

Tours are available with the Max-R/Prestwick team to see our manufacturing operation in action firsthand.

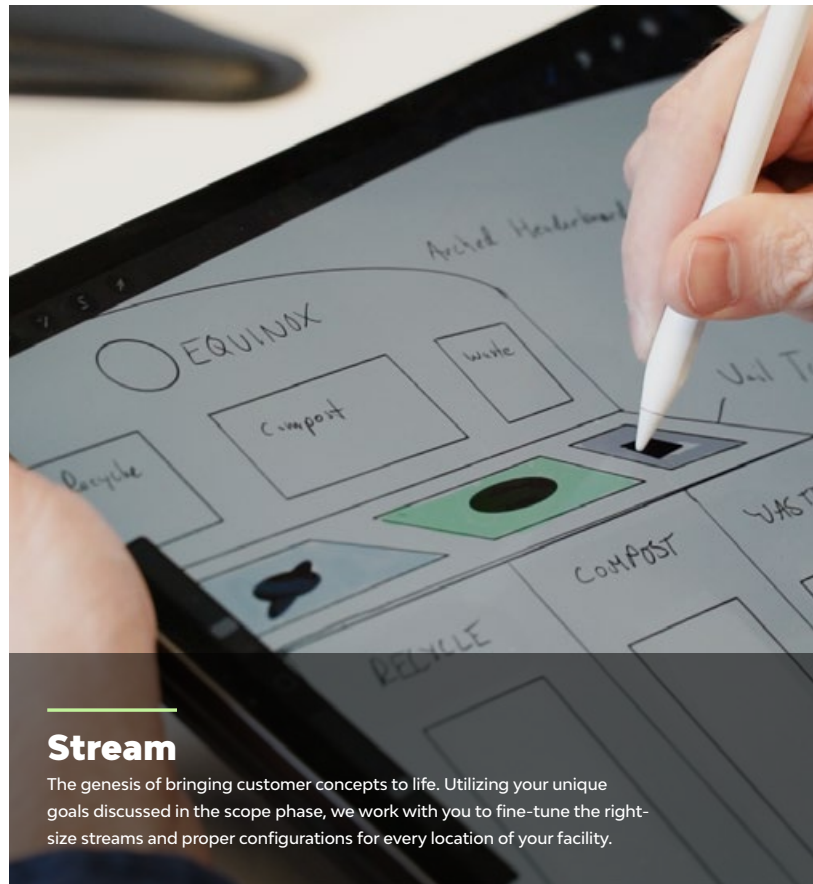

From Discovery to Final Solution

Our seasoned market experts will assist you with proven solutions that support cost containment, revenue generation, and impressive aesthetics within the space. You'll have a team that includes designers and in-house engineers to help you achieve both functional and design requirements.

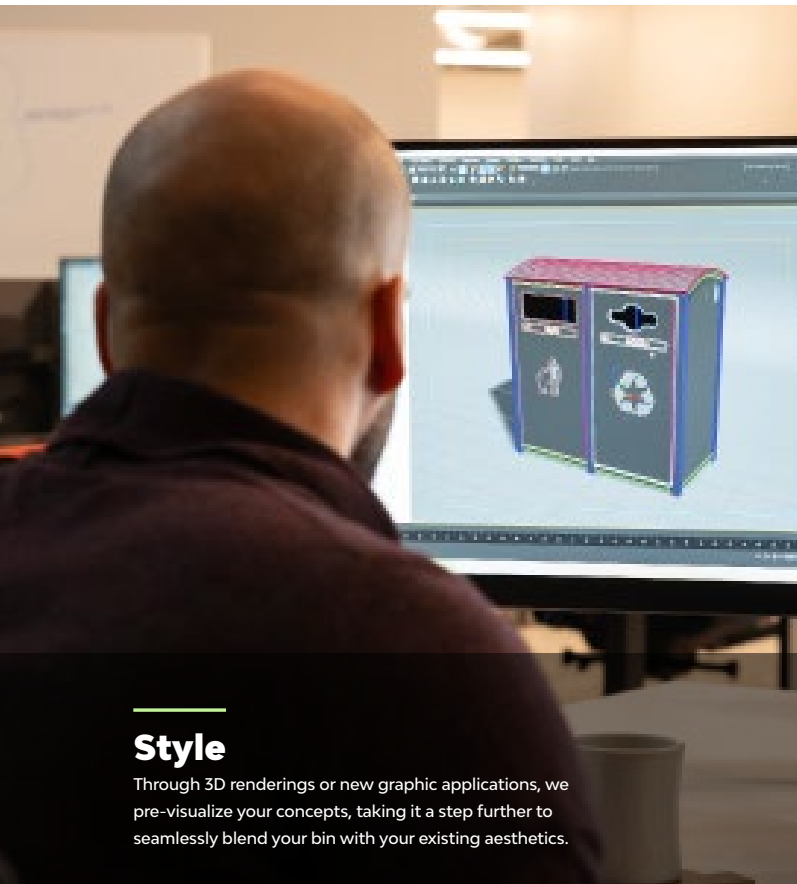

Scope

As the experts in the industry, our sales staff will work with you to talk through your sustainability pain points and customize a bin to your facility's exact needs.

Stream

The genesis of bringing customer concepts to life. Utilizing your unique goals discussed in the scope phase, we work with you to fine-tune the right-size streams and proper configurations for every location of your facility.

Style

Through 3D renderings or new graphic applications, we pre-visualize your concepts, taking it a step further to seamlessly blend your bin with your existing aesthetics.

Build

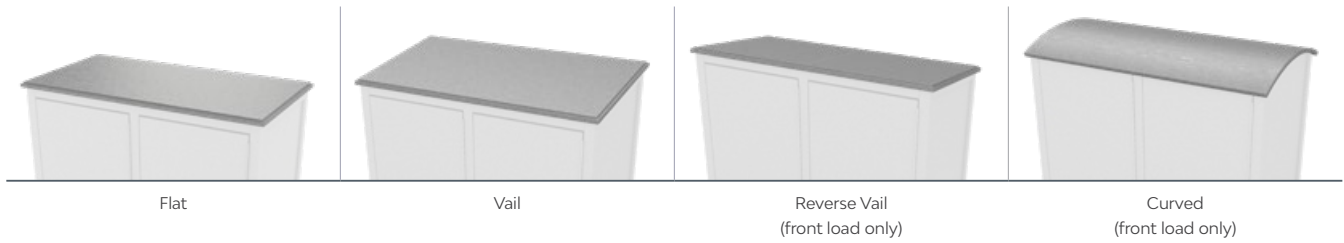

Our in-house engineering department works diligently to continuously test, improve, and create new, innovative solutions, which is then hand-built by our manufacturing team.

WASTE & RECYCLING

NEW Heather and Lochside Collection

The Heather collection features a striking look with beautiful vertical slatted panelling that rounds the corners of the product elegantly. Built around commercial grade durability, the collection features rigid marine grade board and time tested construction techniques. This collection is available with all natural Ipe hardwood slats or recycled HDPE woodgrain.

STORAGE

NEW Custom Cubbies

Custom cubbies provide flexible, durable compartments for organized guest storage. Configure sizes, shelves, and finishes to fit your needs.

FURNISHINGS

NEW Food & Beverage Collection

Explore our portable bars, beverage stations, and credenzas—crafted with commercial-grade durability and customizable features for a polished, professional presentation.

OUTDOOR FURNITURE

NEW Lancaster Collection

The Lancaster Dining Collection features contemporary tables and chairs constructed from powder-coated aluminum and HDPE. Tables are available in 4-top and 6-top designs. Dining and side chairs offer a matching modern look with a stackable design for easy storage.

OUTDOOR FURNITURE

NEW Milano Console Table

The Milano Console Table is designed to add utility wherever it's needed most. Its narrow profile makes it ideal for serving, staging, or display. Constructed from commercial-grade materials, it delivers the same durability and low-maintenance performance as our other collections, all within a sleek, modern form.

Why Recycled Lumber Makes Perfect Sense

MAX-R LUMBER™

Max-R Lumber™ is made from the purest-grade HDPE – and is designed for maximum strength and resiliency. Premium grade resins and UV inhibitors are added to the lumber to prevent fading from sun exposure and to ensure our product's aesthetics and integrity throughout years of use. Since Max-R Lumber™ doesn't absorb moisture, it is resistant to mold, rotting, and won't harbor insects. The result is industry leading, long-lasting, sustainable site furnishings.

All Season

Suitable for all climates; stands up to rain, snow, wind, salt spray, and sunlight—leave outdoors all year.

Durable

Won't rot, split, or delaminate. Solid color throughout ensures a "like new" look for years to come.

Pure Recycled Material

Made from purest-grade HDPE and may contribute to LEED® goals under MR 4.1 & MR 4.2.

Closed Loop

Purity allows material to be recycled multiple times, all scrap is collected for future products.

Regional Footprint

The majority of our raw materials are sourced from within a 150-mile radius of our facility in Sussex, Wisconsin.

Commercial Grade

316 stainless steel hardware ensures long-lasting durability built to withstand high-traffic environments.

Waste & Recycling Solutions Tailored To Your Needs

Ball Arena

ADVANCE SUSTAINABILITY IN SPORTS WITH ALUMINUM RECYCLING

When Kroenke Sports & Entertainment partnered with Ball Corporation as their Official and Exclusive Sustainability Partner, they announced the ambitious goal of transitioning Ball Arena to aluminum beverage packaging for 100% of the venue's concessions. To engage fans and create an efficient means of collection, Ball Arena came to Max-R to design the venue's new waste and recycle stations.

SCOPE

CUSTOMIZE

IMPLEMENT

Brookfield Zoo

TRANSFORMING WASTE/RECYCLE OPERATIONS

Brookfield Zoo partnered with Max-R to transform their waste management infrastructure. Moving from outdated single-stream round units with oversized liners to a comprehensive dual-stream solution, we mapped every waste stream across the Zoo's sprawling campus. The new Max-R units make recycling effortless for visitors while giving facilities teams manageable, right-sized liners. Featuring the Zoo's updated logo, these custom-branded units elevate the guest experience with a polished, cohesive look throughout the property.

Infinity

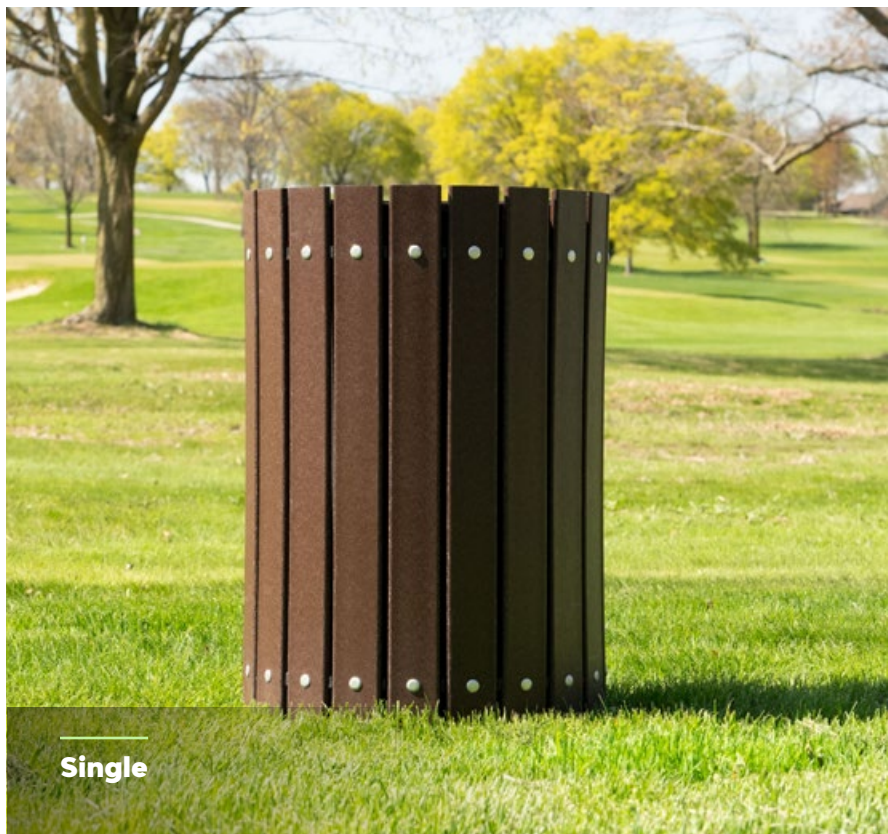

ROUND WASTE & RECYCLING

The Infinity line offers a simple, value-conscious solution for outdoor waste collection. The clean design has an array of colors, openings and branding choices perfect for parks, municipalities and high-traffic public spaces.

Ensuring sustainability for generations to come.

THE CORE OF OUR MISSION

We're proud that our bins and furnishings are crafted from recycled HDPE lumber, diverting waste from landfills and waterways. We have over 25 years of experience partnering with top brands boosting sustainability efforts, promoting green initiatives and reducing their environmental impact. Together, we're building a more sustainable future—one bin at a time.
